

Concur Cliqbook Travel Update: Park 'N Fly Network

“Guaranteed Parking, Guaranteed Savings”

OVERVIEW

Concur® Cliqbook Travel users are able to implement a nationwide parking program simply by enabling the airport parking feature in Cliqbook. By using the Park 'N Fly Network option in Concur Cliqbook Travel, travel managers and TMC's can reduce their parking spend by up to 50% with low-cost, off-airport parking.

The Park 'N Fly Network has seen reservations double in the past year to over 20,000 bookings per month and companies using the network are saving thousands. Corporate travel programs offering Park 'N Fly Network options within Concur Cliqbook Travel have increased the utilization of off-airport parking, while spending half of what they would have spent had their employees used on-airport parking services.

TURN IT ON, SAVE TIME AND MONEY

Although the savings will vary by market, according to Park 'N Fly, the average savings to a traveler choosing their parking instead of on-airport parking is \$5 per day across the country. Daily savings can range as high as \$10 at LaGuardia or even \$15 at LAX, so there can be up to 50% savings on your organization's total parking bill.

“The Park 'N Fly Network will offer Cox Enterprises, Inc. and subsidiaries' tremendous savings over time. It is a very convenient way for our travelers to make certain they have a guaranteed place to park, which is absolutely essential at airports like Atlanta. With our travel originating from so many different cities, the Park 'N Fly Network is a great way to easily offer off-airport parking to nearly all of our travelers and the Concur Cliqbook Travel / Park 'N Fly partnership has been hugely successful within our company,” Cox Enterprises, Inc. Director of Travel, Jeff Messer said.

Concur Cliqbook Travel helps Cox travelers save more than 40% on their parking spend. Cox Communication has achieved over \$7,000 in parking savings since they started using the tool. NCR saves about \$2,500 per month by booking their parking through Cliqbook and has already achieved nearly \$15,000 of savings in 2007.

AFTER RESERVING
PARKING WITH
THIS VALUABLE
RESOURCE,
TRAVELERS BENEFIT
BY SAVING TIME
AND MONEY

FUJITSU reported a savings of over \$2,000 in the first 90 days after the initial rollout. As adoption rates within those companies continue to rise, they are seeing even larger savings with each passing month.

HOW IT WORKS

This parking feature is optional so each Concur Cliqbook Travel client can choose whether to display parking options. Administrators may enable the Park 'N Fly feature in the Company Travel Configuration under the Wizard options section.

Once enabled, parking options are displayed to users automatically on the Travel Wizard itinerary page when they are scheduled to depart from an airport with a parking service. Travelers will be prompted with the option to reserve parking when they are flying from any of the over 60 airports supported by the Park 'N Fly Network, which now offers reservations at more than 85 facilities nationwide. These facilities are among the best in each market, with pick-up and drop-off at the car, luggage assistance, 24 hour security, and other amenities such as free newspapers, car wash, bottled water, etc., depending on the facility. So there is no traveler compromise to achieve the savings.

Reservation times are automatically included in the search, and even take into account check-in requirements for international travel. If the traveler desires to select a different arrival or return time, they may simply make a new selection and search again. Once a reservation has been made, the traveler will be presented with an itinerary, complete with parking instructions and directional maps to the facility where the reservation has been made.

All parking reservations made through Concur Cliqbook Travel can be cancelled without penalty. Simply cancel the parking reservation within Concur Cliqbook Travel or call Park 'N Fly.

The Concur Cliqbook Travel itinerary will include the voucher with confirmation number that travelers will need to print before arriving at the airport and present when exiting the Park 'N Fly Network facility. If the parking facility has a "Parking Full" sign when the traveler arrives, show the attendant the Concur Cliqbook Travel itinerary or confirmation email; the parking reservation is guaranteed.

Now is the time for business travelers to begin taking full advantage of their Concur Cliqbook Travel experience. After reserving their parking with this valuable resource, travelers benefit by saving time and money.

ABOUT PARK 'N FLY NETWORK

Park 'N Fly today operates 19 facilities in 12 markets nationwide. Additionally, Park 'N Fly offers a network of off-airport parking services at over 85 affiliate locations through its Internet-based reservation system, the Park 'N Fly Network. The service standard that was set almost 40 years ago is still enjoyed by travelers today. Park 'N Fly sets the standard higher in customer service than any other airport parking operation.

ABOUT CONCUR

Concur is the world's leading provider of on-demand Employee Spend Management services. Concur enables organizations to globally control costs by automating the processes they use to manage employee spending. Concur's end-to-end solutions seamlessly unite online travel booking with automated expense reporting, streamline meeting management and optimize the process of managing vendor payments, employee check requests and direct reimbursements. Organizations of all sizes trust Concur to help them control spend before it occurs while eliminating paper and optimizing supplier relations. Concur's unified approach to managing employee spend delivers a 360 degree view into all employee expenses, helping companies globally enforce policies and monitor vendor compliance, while delivering unprecedented control and valuable insight. Concur's suite of on-demand services reach millions of employees across thousands of organizations around the world - streamlining business processes, reducing operating costs, improving internal controls and providing enhanced visibility and actionable expense analysis.
