

Concur Provides SNCF Valuable Connectivity to France-based Travelers'

OVERVIEW

With more than 14,000 trains operated daily across France, SNCF rail is an asset to Concur business travelers across Europe. Now that SNCF direct connect has been integrated into the rail section of Concur's travel booking services (**Concur® Travel & Expense** and **Concur® Cliqbook Travel**), it is easier than ever to book rail travel in France. This rail offering provides travelers a unique combined flight/rail travel search, advantage cards, e-ticketing and the opportunity to take advantage of multiple corporate discount codes.

COMBINED AIR-RAIL DISPLAY

With Concur's unique, integrated air-rail display, you can compare air and SNCF rail services on the domestic and European routes that are most frequently used by your travelers, while at the same time comparing travel times and costs.

FRANCE-BASED TRAVELERS BENEFIT FROM COMBINED FLIGHT/RAIL TRAVEL SEARCH, ADVANTAGE CARDS AND CORPORATE DISCOUNT CODES

High-speed rail services are often cheaper than air, and comply with many organization's efforts to reduce their employees' carbon footprint. Travel costs can be reduced by comparing different modes of travel with the help of the mixed air-rail display.

DISCOUNTED FARES RAIL CARDS

With SNCF, there are a number of cards that allow the traveler to get the benefit of discounted fares. Unlike frequent traveler programs, you are allowed to specify more than one discount program per carrier of the SNCF group. For example, you may specify a "Frequence" subscription card for SNCF and a "Lys" card for Thalys in the same availability request.

HELPING CORPORATE TRAVELERS IN FRANCE SAVE TIME AND MONEY

This rail enhancement enables Concur customers to save time on their bookings, while providing access to negotiated rates and the ability to manage multiple corporate discounts in their company configuration

To configure the SNCF direct connect and turn it on in your company configuration, simply contact your Concur implementation representative.
